## Work experience

### C# Developer

#### Devoteam & IMPACT

Lisbon

October 2019 – Present

- Led inRiver projects, customizing solutions and maintaining system performance.
- Over the years, expanded responsibilities to include designing system architecture, mentoring junior developers, and leading critical technical decisions.
- Conducted training sessions on inRiver platform best practices, enhancing team efficiency, accelerating skill development, and successfully scaling the team.
- In 2025, transitioned into broader responsibilities, managing 40% of existing client work while onboarding new clients.
- Expanded into Azure technologies (ServiceBus, cloud architecture) in 2025.
- Preparing for Microsoft AZ-204 certification for Azure development.

### .NET Developer

#### BIG Warranties

Bournemouth

September 2015 – October 2019

- Planned, developed, and maintained systems from database to front-end for internal and public-facing applications.
- Specialized in MVC patterns, Razor, C#, and JavaScript, delivering scalable and maintainable solutions.
- Completed the MCSD (Microsoft Certified Solutions Developer) certification during this role.

### Software Developer

#### Impactzero & Datazone & Depsi

Lisbon & Monção

March 2007 – August 2015

- Managed migration projects in collaboration with FIS Global, utilizing Mumps and proprietary languages on Linux systems.
- Developed web applications for insurance clients (AXA Insurance and BES Insurance) using ASP.NET with AJAX and built simulators.
- Maintained internal projects in VB6, while designing and optimizing databases with MSSQL and Oracle.
